

“Wake Up You Sleepy Headed Moors.”

By Anaidah El

This was and is the command from the Prophet Noble Drew Ali.

Study, Study, Study is another one.

Both of which I endeavor to follow all the time as we all ought to.

What does it mean?

How are we to interpret this?

One clue, and there are many, is Moorish Science.

If we are Moorish Scientist then we ought to know that we do not subscribe to the dogma of Religion, or the blind faith of others especially foreign Europeans.

We are Scientist, or we ought to be.

How do we apply our Scientific ability from a Moorish perspective?

Let's take a look at the Science of creation. This is the Science of Manifestation.

Whether we want to admit it or not. We create our World every second of the day recognizing that [seconds] and [days] is an illusion.

Let us narrow the Science down to the Weather.

Today there is much manifestation regarding the Weather and we fall into the trap every single time!

Remember every [second] of every [day] we create, *i.e.* manifest – Remember this!!!

Each [day] like robots we, Moors who are suppose to be Scientist, watch the square box called a television and on this box at various times of the [day], if not all through the [day], there is mass hypnosis but we will stay focused on the

Weather. If you can get the Science of the Weather you ought to know as Scientist that it applies to **all** areas of ones life i.e. World.

Now near the Fort where I spend much of my time, the Weather **program-ing** is broadcast in the morning, in the evening, and again later in the night.

If you are one of those really asleep Moors and very programmed you also watch many of the so [news] **program-ing** that broadcast all day long.

On these **program-ings** the [weather] person gives the command in a very congenial manner that is very receptive to the People.

To ensure the receptiveness they will usually have a female in the role depending on if the demographics is more [males] and [male] if the demographics are more female to ensure the maximum receptiveness of the **program-ing**.

Remember The Goal Is To Program at Maximum Levels.

People are told i.e. **programmed**, to use their power of focus and bring into existence the very thing they allege they do not want. i.e. the Storm, Rain, Snow, Hail, Sun

This is done without the People being aware at all.

We Moorish Scientist ought to know this science of manifestation.

If you or we want the most harmonious weather, that's all we need to do is decide to come together at a specific time, either in the same space or just at the same time.

At this time we simply need to mentally focus with all our senses, our being, on exactly what we want. Create and repeat a mantra i.e. invocation of what we want and if we do this collectively – you **will** manifest exactly what you want. i.e. great and harmonious weather.

It would seem that we have forgotten the instructions of our Ancient Foremothers and Forefathers and yet at the same time we engage in the Science albeit through the intentional manipulation of the foreign European colonist.

Too many Moors think Europeans do not know who we, the Moors, are.

You are mistaken! They know us so well they use our own Science against us – because **they** do study, study, study. They study our Ancient Foremothers and Forefathers even if we don't.

Think about it my Brothers and Sister – this is the ultimate study. To sit in quiet contemplation and simply think.

The Prophet said “*If I can just get you to think, you'd free yourself*”

Start thinking, studying, studying, studying and you will find that the degrees rise within you, The first temple, and you will find all the answers to every question you could possibly ask.
