The Restoration of Isonomi and Right Law Thinking Amongst Moors

Etymology is the science that will orient the Mind of the Subjugated and un-expecting Moors to the proper History, Law and Culture. The History, origin and true meaning of words will guide Moors in filtering out the diluted and distorted meanings created by the European Re-constructors of World History and World Geography.

The True meaning of the words consider, spirit, god, holy, hell, month, and religion, will reconnect the Minds of Moors to the state of consciousness of their Foremothers and Forefathers. This superior and pristine education will guide Moors to **ISO-NOMI / RIGHT LAW** thinking patterns, and bury the inferior mindset of which defeated Moors have been indoctrinated and socially groomed, thus, putting Moors back on the road to self authority / self rule.
