

Clearing Up Part & Partial / Part & Parcel Mis-Information that CAUSES Confusion

We, being Moors are in fact **Parcel** to the land, as it is our **ancestral estate, by lineal descent, by heritage**, just as we are parcel to Nature, Nature's Law and Divine Law.

Parcel: A part or portion of land. A part of an estate.
Black's Law Dictionary 4th edition, pg.1268

We, being Moors are in fact **Partial** to the American National Constitution, law of the Land. It was established at our authority, for the purpose of bringing Peace, Law, and Order to the land for **EVERYBODY!**, for all ranks of citizenship; Nationals, Naturalized, Subjects, and Alien / Foreign citizens. We, being Moors are the Nationals, which is the highest rank as citizenship goes, and if not for the National, there would be no need for citizenship rankings in the first place. Nationals have political power (although many are not utilizing it), wherein other citizens do not have political power, they are using yours in the name of the American. This gives an idea as to how far off we are today. If we don't enforce the National constitution, we will be molested by those other citizens, as is happening now. The unshakable ancient divine principles of government are imbued in the American National constitution. It is the longest standing constitution on the planet earth to this present day, and is why Prophet Noble Drew Ali said to answer up to and enforce it, as it is the **National** Constitution for Nationals mmm..... The principles of **Love, Truth, Peace, Freedom** and **Justice** are embedded at its foundation, and in its preamble and are the principles for **ALL** Nations of the earth. Put yourself on a solid rock of foundation by studying. Read **Chapter 46** and "**Message To America**" for those gifts of inner-standing. Study for yourself to show yourself approved, so you will know, as man does not know by being told.

Interesting is that those who claim to be **Part** and **Partial** don't even study the American National Constitution, of which they are partial to, yet they say they are Nationals. Nor do they enforce it, as they were instructed. Clearly, they are confused about what they are parcel to and what they are partial to, or they just do not know the difference. Instead they direct themselves by the Union States Constitution, which showers color-of-law over anyone who is a member / citizen of it, as they are **quasi-national** domiciles and venues - not National domiciles for Nationals. As well, those who are so-called vanguards of the Moorish Nation, absolutely ignore the geographic boundaries of the Nation, Al Moroc / Northwest Amexem / Northwest Africa/ North America, the ancestral estate of which they are parcel to by heritage. These geographical boundaries are made CLEAR in **Chapter 47** for their reference and as their divine instructions. **Go figure.**

As Society Begins with Family, so does the Authority to Govern Family and Society.

Your family appellation is NOT derived from the United States, the United States of America, the U.S.A., or any of the union states and 'names' corporate tags for corporations, sub-corporations, charters, sub-charters, etc. The United States, as utilized in the preamble of the American National Constitution is a collective metaphor for 'We the People' of the United Estate; North South, Central and the adjoining Islands - the Moroccan Empire. NOT to be confused with the Moroccan Kingdom, established in 1956. A Kingdom is subordinate to an Empire. For all who signed up as citizens of the Moroccan kingdom, you gave up your ancestral estate. Hillary Clinton, Secretary of Department of State (over all Secretaries of the individual union states), and over foreign AND domestic affairs, before she stepped off, made an address and stated that the Moroccan **Nation**, (not kingdom, not union state, not county, not municipality (Romans), was the first to recognize the United States of America in 1787, not in 1956. That is the "**Treaty of Peace and Friendship' of 1787**, which was / is the pre-mandate to the forming and establishing of the American National Constitution **FOR** the United States of America, as the "Law of the Land". The Treaty is between the 'Moors' and the 'Christians'. Don't get your panties in a bunch, you who say you are Christian. Christians as it refers to in that document, are the descendants of the Christian Crusaders, who are murderers and plunderers, of which such acts are NOT christ-like (crystal clear, pure or cleansing) at all. You must read the "Inter Caetara Divina wherein in their own words, with no uncertain terms, they make it clear to plunder this 'new world' they ventured upon and say they found, and to kill the natives of same if they did not convert to Christianity, is **their** divine mission from god. Do you still want to be that Christian? We refer you again to **Chapter 46** so you can know the origins of Christianity for yourself. It is intelligent and wise to know before making claims.

Asiatic?

It is also good to point out for those who may be confused in regards to why the natural people of the land are Asiatics. Many have learned that across the sea is Asia Minor, if they still teach that in schools today, as teaching the children is why all Temples were to have their own schools to prevent this present day mis-education and dumbing down of the children. We were to get this into the children at all cost. Meaning it ain't just about you, and your leader position or the mantle you wear, it is about posterity, family, the children, of which has been all but seemingly forgotten and are being gunned down in the street like cattle and buffalo. The question to ask yourself, as a geography question, where would Asia Major be? The answer is you are standing on it. You are the Asiatics of the land, as the entire planet is Asa - the lower realm, as it relates to the universal knowledge and geography / astronomy of the heavenly bodies. For all Moors, usually in infiltrated Temples, who think, or have been taught that cosmology has no reference to

the works of Prophet Noble Drew Ali, we suggest you re-read Chapter 1 and "**let the Solar Stations be your guide**, as they will lead to victory, just as is stated in that chapter. For all who may be confused about religion, read "**Religious Controversy**"...."*and though the sun sits at high noon, they comprehend it not*".

Dominion of the Land

The Union States formed yesterday, or that shall be formed tomorrow, has no dominion over the land. Therefore, they have no Territorial Jurisdiction over the land or the people of the land. The 'names' in which they refer to as cities, townships, boroughs, states, counties, or otherwise, are corporate tags, and of recent are from their PRIVATE General Assemblies. Those names represented ONLY sales territories they were allowed to sell in, in regards to plantation work and fur trapping in the first instance. They are the original slave plantation workers. (Read Articles of Confederation 1643 and 1777, found on the **Moors Heritage and History School** page, which includes a comprehension test). However, you will still be lost if you don't know who you are, and who your family, the Brutish - British (England) Moors are. The Sun never sets on the Empire, as it is on both sides.

When the foreign European colonist / pilgrims / original slave plantation workers got here they encountered you - the natives. You assisted them when they were abandoned by the British Moors. That is when they started complaining and eventually the "Declaration of Independence" for them, was established. You were not and are not the Indians, as they liked to call you and this is not India. Read the 1895 - 8th Grade Public School final test out of Salinas Kansas, a public school test wherein to get the question right on the test, the students had to know that Columbus called the people Indians because he thought he was in India. Yet, the Hindus (Indians) he thought you were, looked just like you, as you are the Mothers and Fathers of civilization on the planet and they are also Moors. Another document to read, found on the site is the **Analysis Letter of John Adams 1780**, wherein the colonist were asking for a Treaty to do commerce and in the first paragraph of that document, it says: "for you to ask for a Treaty of Commerce, before a Treaty of Peace is established, is like furnishing a house before the foundation is laid. It also says, before we can do anything with you, we must first see the documentation that the British have given you, your independence, as requested. This is a very unveiling letter.

You, we, being Moors, are to enforce and follow the law of the land - your land, your ancestral estate. You are not to enforce the rules of law established in or by any corporate states constitution, or foreign Europeans private general assembly, of which, in their state constitutions, it is made clear that they are forbidden to violate or abrogate the rules of law established in the Law of the Land - the American National Constitution. (Read Article VI). They cannot perpetrate a fraud upon the natural people

and pretend to be Judges and then hold the people accountable to void judgments and defective writs. That is exactly what they are doing with feigned infractions and violations that are not infractions or violations at all. They make them up, create Bills of Attainders, municipal warrants (romans), which are Bills of Attainders by definition. The constitution spells out in Article 1 Section 9 for Congress and section 10 for states that they are forbidden to create Bills of Attainders, Ex Post Facto Laws (that is when they hinder you and charge you with something after the fact). They, being private employee security guards hired by Mayors of cities, go to the schools and other public organizations, i.e. NAACP meetings and teach the students and members how to allow them to violate their civil liberties. The students and members accept it, even though that officer may be violating their human and civil liberties. Now that is the enslavement of yesterday happening today, as their intent to enslave you and murder you is documented as their intent, even if the current day trained employee *may* not know it. If you knew your liberties, you would quickly recognize it.

Form of Government For the People of and In the Land

The Law of the land guarantees a Republican **form** of government and NOT a democracy. Democracy (demi, meaning lesser then), is the code word for the slow infiltration, of which they have successfully gotten unconscious Moors to subscribe to, as if it has true bearings. Asking if you are a Republican or a Democrat ABSOLUTELY has no bearing on the Form of government, as the law of this land is based in a Republic **Form** of government, not a choice you may want to have, and you need to know the difference. You would not be talking about being a Democrat ignorantly, meaning, for one; you don't know and for two; you are willing to abandon your ancestral estate and its Form of governing. A Republican **FORM** of government is for the people, by the people and of the people, which is Peace, and it is what is already established, it is not changeable or debatable. You, we, accept these traps due to lack of knowledge and for that we suffer. Refer to Article IV and to Article VI of the American National Constitution wherein, if anyone violates the Law of the land with ordinances, codes, statutes, etc., those same ordinances, codes and statutes would HAVE NO STANDING IN LAW!!! non-existent.

"An unconstitutional act is not law; it confers no rights; it imposes no duties; affords no protection; it creates no office; it is in legal contemplation, as inoperative as though it had never been passed." **Norton v. Shelby County, 118 U.S. 425.**

"Where rights secured by the Constitution are involved, there can be no rule making or legislation, which would abrogate them." **Miranda v. Arizona, 384 U.S. 436.**

We have figured it out already, many of the so-called leaders of those who are Moorish American / Moor American - same thing; as American and Moor are the same thing; either do not study, OR are infiltrating agents by conscious design, or by someone else's conscious design who came before them and taught them to be infiltrators. Many of them say you cannot be a Moor UNLESS you come through a Temple as a member. That is a MOST ABSURD statement which proves a desire to own and / or control others, and proves the existence of mental slavery if another believes it and acts upon it as truth. You are born a Moor, as a matter of blood line, lineage and heritage, thus birthrights - not Temple rights. **Simple:** Prophet Noble Drew Ali himself was a Moor *prior* to establishing any Temple. So such statements show and prove themselves, if you would just get to thinking and studying, which really are the same thing in many ways. If these people are talking about an agreement made AFTER he left the scene, then what would that be, as his instructions were clear for us to all live in peace and not be molested. Until they enforce the American National Constitution for Nationals, as instructed, then they have not done what was directed of them by Prophet Noble Drew Ali. Therefore, there is no need to make up anything new in an effort to bring unity and peace, the agreement and instructions have already been made clear. Most of us know most Moors, unfortunately and sadly do not enforce the American National Constitution for Nationals (they don't know the difference between a state's constitution, their Membership By-Laws and Constitution and THE National Constitution). Until they get to knowing and acting upon that, anything else would be treason on their part, even as a Moor. We recognize fraud and so ought you.

Even more sinister and unveiling is that those who say these things are probably working with the foreigners through their corporate county You ought not be registering, you ought to be Declaring and Proclaiming, as instructed. Why else would they say something like that? OR, they just have no ability to be fearless, independent and upright Moors, of which they would have to be lacking those qualities to even make a statement like that or an agreement like that with foreigners to keep the aboriginal and indigenous natives (Moors) under their jurisdiction. So be careful Moors, some of your own will put you back into slavery. The last reason for these statements and actions of so-called leaders is that they prove lack of study, as they were instructed and obligated to do, many of them think you are a U.S.A. citizen and that is absolute proof of one or all of the above reasons. Be sure to read the Magistrate and Subject relationship - Chapter 29, the Sheiks are chosen by you, the member and considered a favorite amongst his equals, which is you, the member. This is an election process from the very first line of that chapter. Also be sure to have read Chapter 28, before you decide and act upon a Master / Servant relationship with anyone.

Leaders In and Out of Temples

These failed acts of leadership are equivalent to the so-called civil rights leaders, leading people down the road of the Civil Rights Act, of which was struck down as unconstitutional. Yet people still march about it in ignorance. The children are state property children being killed like animals in the street because they were not guided to know anything about, or have any honor of their mothers and fathers, who are the mothers and fathers of civilization and civilization principles. They have not been made aware that they themselves are all law divinely manifested in the flesh. They, then, are prime for the modern foreign European squatters and their documented intent to live out their religious purpose, which is to murder them and commit birthright theft under threat, duress and coercion methods today. They re-member they were in slavery, at the hands of the Brutish (British) Moors, and were not treated well and they do not want to go back to that position, nor would they, if they would be law abiding, instead of violating the law and ignoring the American National Constitution, which is the compact designed to preserve, protect, and secure everyone's rights and bring the Peace we all say we seek. It is important for Moors to re-member who they are. This is NOT the ancestral estate of foreign Europeans who admittedly came over on slave boats, on the Mayflower, at the instructions of Queen Isabella, or via Ellis Island and any other way they could escape their tyranny, as they look for a place to squat. It is all written and documented truth, however their public education has not been applied to tell that truth to our children. What they are learning is the "**12 Years A Slave Programming**".

These foreign Europeans who are violating the natural people are the ones who came to someone else's land on boats, and they refuse to follow the law of the land, which is what freed them. They want to enslave the people who agreed and assisted in their freeing. Read the letter from **Benjamin Bannekar** to **Ben Franklin, 1791** he mentions same to them in that letter. We need NOT allow them to tell us what they want us to know about Benjamin Bannekar, which is what they are posed now to do since we believe whatever they say and we do not study for ourselves, and do not teach our own. Also read the letter from **George Washington** to the **Sultan of Morocco, 1789**, wherein you will see we assisted them, and established the constitution for them, as the law to follow and enforce on the land. Both letters are found on the '**Forgotten Scrolls**' page of the site. These are some of the truths that were not taught in the corporate state public schools that we send our children to and believe it is the law to do so. Since they know we don't know any better, they have created fake laws wherein they will fine you and put you in jail if you don't send YOUR children to their '12 Years A Slave Program'. Now we can begin to recognize the importance of our obligation to our children, and at the very least, tell them the truth of their heritage and their true place in history. Prophet Noble Drew Ali pointed you in the direction of your illustrious history as Moors (before a MSTA Temple was established), when he wrote "**Message To America**", and

talked about the wonderful buildings, such as the Al Humbra and the Taj Mahal, that Moors built. We can now understand why they are all over what you teach YOUR child and why they insist on providing a curriculum to YOUR child, one which is a dumbed down and lacking truth of their heritage and their place in history, giving them no sense of pride. Upon study, we found that heritage and history and it was never really hidden.

Clearly these modern Europeans are feigning to be what and who they are not, as it pertains to having any jurisdiction over your ancestral estate or over you. Your Birthrights cannot be bought, cannot be sold and cannot be transferred, therefore are fixed in nature and there is nothing anyone can do to change that, not even paperwork can change that truth, and thank goodness that no one can change another's descent nature.

To Conclude: Things would be quite different if Moors would declare their status and claim their estate via birthright, and stop acting out as if this land is the ancestral estate and inheritance of foreigners, colonist, pilgrims who came on boats as slaves, beggars, friars and thieves. We trust all will rise to a civilized position in truth, as the truth does not change, nor pass away. If you do nothing else, declare your nationality and take your place amongst the affairs of man, your status determines your relationship to the community, but it is not a mere relationship, it is a legal one. Common law is International law, it is not corporate state law, or policy, not county or municipal (roman) law. You are not a member / citizen of any corporate state. Enforce the Law of YOUR land, if you don't, you cannot expect anyone else to respect it. You would think any so-called leader would know that. Do not confuse your inherent civil Liberties with any civil rights act. There is no excuse for so-called leaders, in or out of the Temple to lead you to do so, and there ought be no more time for them because time is unity, and if they are not willing to be unified, the universe will afford them no longer.
